About AX Series

A10 Networks' AX Series is the industry's best price/performance advanced traffic manager - helping enterprises and ISPs maximize application availability through a high-performance and scalable Web application delivery platform. The AX's Advanced Core Operating System (ACOS) architecture has garnered the company numerous awards and is revolutionary by market standards due to native multi-systems support - which includes an optimized multi-CPU architecture built from the ground up that leaps the competition in terms of performance, scalability and reliability.
