The Army Chief Information Officer (CIO)/G-6 Certifying Authority (CA) granted Information Assurance (IA) certification on 23 August 2013 based on the Cybersecurity (CS) testing completed by the United States Army Information Systems Engineering Command, Technology Integration Center (TIC)-led CS test teams. This solution achieved interoperability (IO) certification from the Joint Interoperability Test Command (JITC) on 08 November 2013. This approval is effective upon the date of this memorandum and expires 17 February 2020 unless a critical issue is identified that invalidates either the IO or the CS posture of this product as determined by the JITC or the CIO for Combatant Commands, Services, and Agencies. Please note that Services and Agencies are required to recertify and reaccredit their systems every three years. Please refer to the DoDIN APL for official posting of this solution at the following site: https://aplots.disa.mil/apl.

2. This product/solution must be implemented only in the configuration that was tested and approved. To ensure an acceptable level of risk for each site's Authorizing Official (AO) / Designated Accrediting Authority (DAA), please utilize this solution's deployment guide and refer to the Conditions of Fielding (CoF) as depicted within the Cybersecurity Assessment Report (CAR). The CAR is included in the Cybersecurity Assessment Package (CAP) and can be
